Port of Koper – Luka Koper

Luka Koper, port and logistic system, d.d. is a public limited company which develops and manages the Port of Koper, the only Slovenian seaport of very strategic interest. The company operates all **12 specialized terminals** in the multipurpose port, handling all types of cargo: containers, cars and Ro-Ro, various general cargo products, dry bulk, liquid bulk and passengers. The total throughput of the port in 2018 was 24 million tons, including 988,499 TEUs and 754,409 car units, making Koper the **largest container terminal in Adriatic** and one of the most important car terminals in Europe.

The Port of Koper has a strategic geographic position in the North Adriatic region and therefore important opportunities for servicing its Central European markets. It represents the **shortest link from the Far East via Suez to Europe** with a distance that is about 2,000 nautical miles shorter compared to other North-European ports and consequently enabling around 5 days shorter transit time. The consequent advantage is the optimization of the whole supply chain, making it more efficient and lean, with substantial cost and time savings for the customer.

The majority of the port's throughput is destined for the hinterland countries, namely: Austria, Hungary, Italy, Slovakia, Czech Republic, Germany and others. Port's connectivity shows a very high dependency on railway support as **60% of all cargo handled in the port is transported by rail** with daily container trains departures to main logistic and industrial centres in central and eastern Europe. Maritime connections include Mediterranean feeder and other short sea trade services. Koper has especially good container connections with Far East and South-East Asia, with weekly arrivals and competitive transit times.

Luka Koper d.d. is member of NAPA (Nord Adriatic Ports' Association), ESPO (European Sea Ports' Organization) and FEPORT (Federation of European Private Port operators), EcoPorts and Med Cruise. It has achieved several ISO quality standards and is very environmentally friendly oriented applying the EMAS scheme.

The main development focus will be on containers and cars, however the multi-purpose nature of the port will be preserved. The development plan of the Container terminal anticipates the extension of Pier No. 1 and the construction of new facilities, enabling an annual throughput of 1.5 million TEUs by 2021.

Company Profile

Pošta Slovenije is Slovenia's national postal operator, wholly owned by the Republic of Slovenia. With the largest national delivery network and nearly 5,500 employees, the company is one of the leading partners for the business enterprise sector in Slovenia, providing traditional postal and courier services (guaranteeing the universal service in the country), morning newspaper deliveries, financial services, logistics services (including the supply chain logistics), secure electronic services etc.

The company is the controlling company of the **Pošta Slovenije Group** which includes a number of subsidiaries that provide the following services:

- hybrid mail services including the preparation, design, printing or printout of addressed mail, insertion of promotional material, submission of postal items for delivery, drafting and sending printed and electronic invoices, accredited electronic archiving and 3D printing;
- online retail sale of B2C and B2B;
- daily digitalisation of incoming and internal mail for businesses and public institutions;
- logistics services, specializing in particular in warehouse logistics. In terms of warehouse capacities, the company is one of the largest in Slovenia. It provides logistics, transportation and forwarding services, and various supplementary warehouse services (e.g. packaging, labelling and declaration services).
- freight forwarding and other transport support services, which cover forwarding and agency transactions, primarily with regard to organising international and domestic transportation services and representation in customs clearance proceedings. As an equal link in the Expeditors Global Network, the company provides its customers global door-to-door transportation services, including other logistic services required for the complete execution of a transaction.

The Group also includes a sheltered undertaking providing services to support the controlling company's operations. It is one of the largest employers of disabled persons in Slovenia and provides a safe work environment for vulnerable groups of employees.

ILIRIKA is a company, which operates in the M&A sector, with a market share in Slovenia in the last few years of around 90%, making us the largest and most experienced company in Slovenia in this field of work. So far we had worked for many well-known foreign and domestic companies, when they were looking for acquisition opportunities in Slovenia. Furthermore, ILIRIKA is one of the leading brokerage companies in Slovenia. We offer services of stockbroking, management of financial instruments and services from the field of company finance activities (issuance of bonds, commercial papers). We also strive to guarantee the highest possible level of quality of our services, which are constantly being expanded and improved. We complement our comprehensive selection of investment services in Slovenia with business and investment opportunities on foreign markets. We have local business units in Slovenia, Serbia and Macedonia.«

In Cyprus we would like to meet with legal and/or physical entities, interested in company acquisitions in Slovenia and in the SEE region.

V pričakovanju nadaljnjih navodil vas lepo pozdravljam.
